● OVERVIEW

Self-managing landlords **lack visibility** when rent proofs, repair requests, and updates get buried in WhatsApp conversations, creating miscommunication and forcing both sides into repeated follow-ups.

Title	Target audience	Focus	Time line	Tools	My Role
CueUp	Self-managing landlords	Rent	Apr 2026 –Jul 2026	  	Product design
	Tenants	Repair coordination			Research synthesis
					UI Excecution

● SOLUTION

CueUp gives landlords and tenants a **shared view** of rent and repairs, making every status, update, and next responsibility clear.

● INITIAL FINDINGS

I reviewed nine public Reddit posts and comments to understand how landlords and tenants currently coordinate rent and repairs.

● COMPETITIVE ANALYSIS

Built for different rental needs

			
Focus	PG, Hostel And Co-Living Properties	PG, Hostel And Co-Living Properties	Shared Rent Records
Cueup	For Self-Managing Landlords With A Few Properties	Simple Rent + Maintenance Coordination	Shared Status For Rent + Maintenance

● CONSTRAINTS

The product was intentionally limited to a focused rent and repair coordination model.

Focused Audience

Self-Managing Landlords With A Limited Number Of Properties And Their Tenants.

External Payments

Rent Is Paid Through UPI, Bank Transfer, Or Cash. CueUp Records Proof And Status.

Manual Accountability

Landlords Verify Payments And Assign Technicians They Already Work With.

Product Boundary

No Accounting, Built-In Chat, Payment Processing, Or Vendor Marketplace.
